Moisture Scanner

☐ CE   ☐ RoHS

M72-SC Non-destructive measurement of moisture content.

Applications:

Wood , Building Materials , Concrete , Seepage inspection, General Materials...etc.

- Fast, Accurate and simple to use
- 8 Wood Groups and Calibration Build in
- Moisture limit value setting
- Temperature indication, ℃ / ℉ Available
- Data-Hold / Auto Power Off
- Digital LCD Display with Back-Light
- Battery Level Indication
- CE and RoHS Approved

For Wood

For Concrete

Specifications of M72-SC

Measurement Range	0 ~ 55% WME
	0 ~ 50℃ (32~122℉)
Accuracy (at 25℃)	Moisture: ±1.5%
	Temperature: ±1.0℃ (±1.8℉)
Wood Density Range	0.26 ~ 1.05g/cm³
Measuring Depth Range	0 ~ 50mm ※Due to different materials and different depth.
Display	Digital LCD display with Back-Light.
Main Functions	※Data-Hold
	※Manual / Automatic shutdown
	※Built-in calibration function
	※℃ / ℉ switchable
	※Battery symbol
	※Moisture limit value
	※Select wood density
Power Supply	One 9V battery
Dimensions	63.6 x 31 x 125.8mm (2.5X1.2X5.0 in)
Weight	Approx. 142g (battery included)

※Specifications are subject to change without notice.
